CARVING GRUNGE | BRUSHED WHITE OIL

Carving Grunge is one example of Mafi's innovative approach to revolutionising the way we manufacture and use wood. Mafi's Carving technology engraves designs on to golden Oak Country and darker Oak Country Vulcano planks, the colour of which is attributed to the Mafi volcano thermo heat treatment. The graphic design runs along the floor plank and is repeated several times lengthwise.

Mafi floors stand out due to their longevity and robustness, and are 100% all-natural, free from harmful substances such as formaldehyde.

This hand crafted, engineered board consists of three-layers with the top and bottom made of the same species, ensuring perfect balance. The middle layer is conifer and runs across the grain for added strength. The layers are glued together with an all-natural glue of water, lime and plant acid.

This board comes pre-finished with a superior all-natural oil finish making it suitable for heavily frequented domestic and commercial areas, as well as over under floor heating and in bathrooms. Due to its striking design, Carving Grunge is ideally suited for use in corporate architecture.

Each board comes with a micro bevel on the long side with tongue and groove on all sides for easy installation and to prevent splintering.

Oak Country has some cracks, knotholes and large knots which are emphasised with black putty. Variations in colour and sapwood at the edges are possible. Open cracks and unsealed spots of only a few millimetres can be expected.
